

New!!! **SCHOOL IPM MANUALS**

AVAILABLE JUNE 2002

Integrated Pest Management Guide for Northeast Schools

This how-to manual is an excellent resource specifically tailored for the needs of schools in our region. It provides information on managing pests such as carpenter ants, lice, rats, mice, and other common indoor pests of the Northeastern US. A must-have resource for all schools – especially those just starting out in IPM.

Outdoor Integrated Pest Management for Maine Schools

Maine's own IPM manual for school grounds! This easy-to-use guide is an excellent resource for anyone responsible for school grounds maintenance. Includes step by step recommendations for establishing an IPM Program and guidelines for optimal management of turf, shrubs and trees. Also: tips for prevention and control of specific pests such as rodents, ants, weeds, wasps and other critters.

Please send me _____ copies of the **Integrated Pest Management Guide for Northeast Schools** (for management of indoor pests) (price: \$7.50 ea.) **Workshop participants: your registration fee includes one copy of this manual which will be sent by mail at no charge.** Use this form to order additional copies.

Please send me _____ copies of the **Outdoor Integrated Pest Management for Maine Schools** (for pest management of turf, landscape and other outdoor sites) (price: \$10 ea.)
